Summary

Information Systems student at USP-São Carlos with hands-on experience in full-stack web development (React, Angular, Next.js), Java, Python and TypeScript/JavaScript. Skilled in Docker, Git, database modeling (MER & relational) with PostgreSQL and Oracle, Clean Code and OOP—actively seeking an internship or junior developer role to deliver scalable and maintainable solutions.

Education

- **University of São Paulo (USP)**, São Carlos, SP
- Bachelor's in Information Systems (2022 - 2026)

Work Experience

Back-end Developer, Aisa Tech (Remote)

November 2023 - Present

- I am participating in the development of a school system.
- I am participating in the development of a warehouse management system (WMS).
- Developed a dashboard for an existing project management platform for architects.
- Contributed to front-end development of a real estate listing platform for agencies and users.
- I wrote several technical documentations.

Skills

- **Languages & Frameworks:** React, Angular, Next.js, Java, Python, TypeScript/JavaScript
- **Databases & Modeling:** PostgreSQL, Oracle, MER & Relational Modeling
- **Tools:** Docker, Git
- **Principles:** Clean Code, Object-Oriented Programming (OOP), Design Patterns

Licenses & Certificates

- **Contemporary Theories of Consciousness**
FFLCH Summer Courses 2024 - USP (Mar 2024) | Credential: GNKH-4FPP-UAED-T3CD
- **Fundamentals of Reinforcement Learning**
Coursera (May 2023) | Credential: GPBL7VB2UEEH
